DETAILED ACTION

Specification

The use of the trademark COOLMAX has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

Claim Objections

Claim 11 is objected to because of the following informalities: in line 1 it appears that language is missing after "wherein". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Gracie (US 4,407,497).

Gracie discloses a bra as broadly claimed in that the support garment contours and supports the breasts and can be worn as an undergarment. The front is spandex and supports the breast and includes first and second shoulder straps and the rear includes at least one pocket 18 with weight disposed therein. (See Gracie, figures 1-5 and col 3

lines 54 –59) and col. 3, line 33 – col. 4, line 34). Gracie discloses an outer panel (at 18) on the rear of the bra and an inner panel to at least partially define the pocket as seen in figures 2 and 5. Gracie discloses a second one of the pockets as claimed as seen in the figures.

Claims 2,4,5 and 7-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 14-26 are allowed. None of the cited references, alone or in combination disclose the weight and fastener and the pocket and fastener that complements the weight fastener for attachment within the pocket and the cold packs within the pockets with the weights as claimed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
